Delivering Excellence in Life Sciences

Annual Report 2015-16

Value Creation

It is an era of opportunity! An era that will change the course of history of our great nation. But an era of increasing customer expectations, increasing regulatory requirements and intense competition. Such times require every Company to have a strong foundation to sustain with good health. In order to grow, in such an era, strict adherence to one's ideal and a committed pursuit of excellence becomes imperative, something that has helped Jenburkt to stay ahead, not just today, but from the very days it began.

Profit has always been a good indicator of any business model. However, to really judge the robustness of the business model the financial stability must be viewed from a complete perspective. On a longer horizon, a business model can only remain robust, if the process of "Conceive, Create and Deliver" is focused year-on-year. Relentless pursuit to Conceive, Create and Deliver, over the years, by Jenburkt, has resulted in "Value Creation" for our Customers, Employees and Shareholders.

3. Management Discussion & Analysis Report:

a. Industry Structure and Development:

India enjoys an important position in the global pharmaceutical market. With a large pool of scientists and other professionals, the only way forward is to achieve new heights. Various reports which are in public domain, suggest that the Indian pharma industry is estimated to grow at a greater speed over the next five years and that it will outperform the global pharma industry with a good margin. Indian Companies rank the highest in manufacturing facilities registered with US FDA, compared to other countries.

Spending on medicines globally is expected to grow substantially in the next five years as compared to its absolute growth in the past five years. This growth will mainly come from emerging countries, while the growth from developed countries is expected to be comparatively less. Significant efforts through various schemes are made by these emerging countries to cover more people with health insurance and basic medical services, while millions still have limited access to healthcare facilities. At present, the average spending per person on healthcare is USD 609 in developed countries whereas the same is a meager USD 91 in emerging countries like ours. This indicates huge deficiencies of healthcare facilities to

the masses and on other side provides huge opportunities to the pharma industry in India.

The Government of India's "Pharma Vision 2020" is aimed at making India a global leader in end to end drug manufacturing. Affordability and availability of medicines to masses is also aimed at.

Some of the major steps initiated by the Government of India to promote the pharma sector in India are to incentivize bulk drug manufactures, to reduce dependencies on import of API through its "Make in India" plan, to provide resolution of issues and constraints faced by the pharma industry in India, to support start-ups in R&D in pharmaceutical and biotech industries and to allow FDI up to 100% for manufacturing of medical devices.

Your Company appreciates the vision of the Government of India to enable the Indian Pharma Industry to play a leading role in the global market and to ensure abundant availability, at a reasonable price within the country, with good quality pharmaceuticals for mass consumption.

b. Business Performance, Opportunities and Outlook:

The Indian Pharma Companies are expected to achieve robust growth, driven by consumer spending, rapid urbanization and rising healthcare awareness. Better growth in domestic sales would depend on the ability of companies to align their product portfolio towards chronic therapies for critical diseases. Schemes like "Jan-Aushadh" and rural healthcare performances are in the focus of the Government of India and are expected to benefit the public at large and also the pharma companies. Invention and new technologies to treat life threatening diseases can be an engine to the robust growth expectation of the Indian Pharmaceutical Sector.

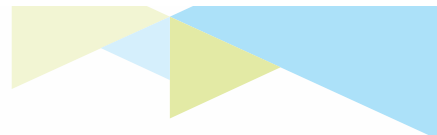

c. Risk, Concerns & Threats:

The pharmaceutical product prices in India are regulated by the National Pharmaceuticals Pricing Authority (NPPA). The NPPA, vide various notifications, declares the ceiling price of the formulations mentioned in the NLEM (National List of Essential Medicines), beyond which the

companies are restrained to fix the MRP of their products. The Department of Pharmaceuticals, vide its Notification dated March 10, 2016 has amended Schedule-I of DPCO, 2013 by substituting NLEM 2011 with NLEM 2015. As per this notification, few more products have been brought under price control, while few have been removed. However, the products in price control contribute a very small amount to the total revenue of your Company.

The NPPA had served a show cause notice to your Company alleging that the pricing of a product of the Company was violating the NPPA's standing order. However, after a personal hearing and detailed submission, the NPPA passed a written order stating that your Company's product had not violated the standing order. Subsequently, without having any power to review, the NPPA reviewed its own order, and issued Show Cause Notices and a Demand Notice to your Company. Your Company subsequently filed a writ petition against the demand of NPPA, at the Hon'able High Court of Bombay. The matter was settled in favor of your Company. After over a year, the NPPA filed a Special Leave Petition (SLP) demanding Rs. 16.45 crore at the Hon'able Supreme Court, where the matter is pending after being admitted for further arguments. DPCO, 1995, explicitly debars the NPPA to review its own order, the very reason cited by the Hon'able High Court of Bombay, while quashing the Show Cause Notices and the Demand Notice in their judgement dated 08th August, 2013 and 26th September, 2013. Your Company has been legally advised, that based on the facts and merits of the case, the demand raised by the NPPA is not likely to crystallize.

The Ministry of Health and Family Welfare, Government of India, vide its notification dated 10th March, 2016 banned 344 Fixed Dose Combinations (FDCs) with immediate effect. Many Companies including your Company have challenged the said notifications at the Hon'ble High Court of Delhi. The Hon'ble Court has stayed the enforcement of the said notifications and the matter now is sub-judice. Seven products of your Company are affected by the said notifications. The Management is of the opinion that if the said notifications are upheld and come into effect, they will not substantially impact the sales and profitability of the Company.

The constant change in policies by the Government of India and its delays in product approvals have an undesirable effect on the industry.

Any further increase in the number of FDCs banned or in the number of drugs on the National List of Essential Medicines (NLEM) may hamper the profitability of the Company.

d. Internal Control System:

The Senior Management of the Company is committed to maintain and improve the internal control system of the Company which comprises of compliances, risk management, etc.

Annexure B to the Independent Auditors" Report

Referred to in paragraph 10 (f) of the Independent Auditor's Report of even date to the members of Jenburkt Pharmaceutical Ltd. on the standalone financial statements for the year ended March 31, 2016.

Report on the Internal Financial Controls under clause (i) of Sub- Section 3 of Section 143 of the Act

1. We have audited internal financial controls over financial reporting of Jenburkt Pharmaceuticals Ltd. ("the Company") as on March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities includes the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Inherent Limitation of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial control over financial reporting were operating effectively as at March, 31 2016, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The estimate of the useful life of the assets has been assessed based on technical advice which considered the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, manufacturers warranties and maintenance support, etc. Useful life of tangible assets adopted is not different then the useful life prescribed in Part C of Schedule II of the Companies Act, 2013. 10. Provision for Current and Deferred Tax:

Tax expense comprises of current and deferred tax.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

The deferred tax for timing differences between the book and tax profits for the year is accounted for, using the tax rates and laws that have been substantively enacted as of the Balance Sheet date. Deferred tax assets arising from timing differences are recognised to the extent there is reasonable certainty that these would be realised in future.

The carrying amount of deferred tax assets are reviewed at each Balance Sheet date. The Company writes down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain, that sufficient future taxable income will be available against which deferred tax asset can be realised. Any such write-down is reversed to the extent that it becomes reasonably certain, that sufficient future taxable income will be available.

Provision for Current taxes is made after taking into consideration benefits admissible under the provision of Income Tax Act 1961. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent Liabilities are not recognized but are disclosed in notes.
- 2.1 National Pharmaceutical Pricing Authority (NPPA) had served a Show Cause Notice to the company alleging that a company's product was violating NPPA's standing order. However after a Personal hearing and detailed submissions filed by the Company before them, NPPA passed a written order, that the Company's product did not violate the said standing order. Subsequently, NPPA reviewed its own order and issued Show Cause and Demand Notice to the company. The company subsequently filed a writ petition against the Show Cause and Demand notice of NPPA, before the Hon'ble High Court of Bombay, and the same was quashed by the Hon'ble High Court of Bombay. Therefore the matter was settled in favour of the company. The NPPA after over a year filed a Special Leave Petition (SLP) (citing demand notice for Rs. 16.45 Cr) at Hon'ble Supreme Court, where the matter is pending. The company has been legally advised, that based on the facts and merits of the case, the demand raised by NPPA is not likely to crystallise and therefore the same is not recognised.
